

## How to update/upgrade to Adobe Flash Player 9

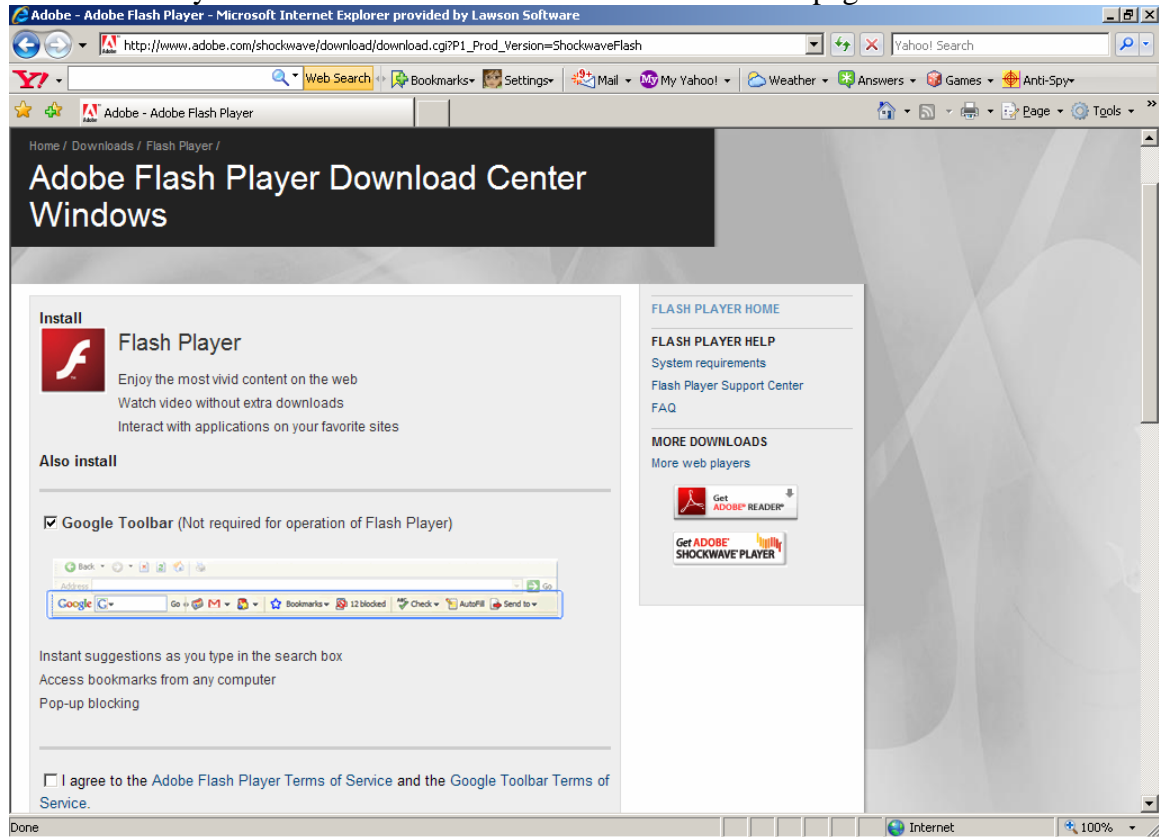

Please point your web browser to the following link:

<http://www.adobe.com/products/flashplayer/>

The screenshot shows a Microsoft Internet Explorer browser window displaying the Adobe Flash Player 9 website. The browser's address bar shows the URL <http://www.adobe.com/products/flashplayer/>. The website header includes "Home / Products / Adobe Flash Player". The main content area features a large red and white graphic with the Adobe logo and the text "Get Flash Player 9". Below this, there is a "Download now" button. To the right of the graphic, there is a section titled "NEXT STEPS" with links for "Download now" and "Get support". Below the graphic, there is a section titled "FLASH PLAYER HOME" with a "PRODUCT INFORMATION" sub-section containing links for "Features", "Security and privacy", "FAQ", "Statistics", "System requirements", "Datasheet (PDF, 201 KB)", and "Flash Player documentation". There is also a "SUPPORT" section with links for "Settings Manager" and "Flash Player Support Center", and a "LICENSING" section with links for "EULA", "Player licensing", and "Technology partners". The bottom of the page features a "Flash Player | December 20, 2007" section with "Top support issues" and a list of articles, including "Upgrading the Flash CS3 Professional authoring tool with the Flash Player 9 Security Release (apsb07-20)" and "Upgrading the Flash CS3 Professional authoring tool with t...". The browser's status bar at the bottom shows "Error on page." and "Internet" with a 100% zoom level.

Click on Download now

This will take you to the download instruction and installation page:

- **Version:** 9,0,115,0
- **Date Posted:** 12/3/2007
- **File Size:** 2,257 K
- **Download Time Estimate:** 2 minutes @ 56K Modem

You must close all other browser windows before installing.

## Installation instructions

1. Installation of Adobe Flash Player may require administrative access to your PC, which is normally provided by your IT department. It is recommended that you close all other open browser windows before continuing with the installation.
2. Click the Install Now button to automatically download and install Adobe Flash Player into Microsoft Internet Explorer.
3. Depending on your security settings, you may see a Security Warning dialog box. Click Install to install the ActiveX control.

4. When the installation is complete, you will see the Adobe Flash Player logo and text.
